Dear Judge Robinson:

I write on behalf of Data Speed Technology LLC ("Data Speed Tech") regarding two alleged deficiencies in the chain of title that were identified by Defendants at last week's oral argument on Defendants' motions to dismiss: (1) the alleged failure to provide a copy of Peter J. King's will and (2) copies of the actual assignments between Kenneth Conner and Data Speed Tech.

These alleged deficiencies had only been raised in a single sentence in Defendants' most recent reply brief, a brief to which Data Speed was not entitled to respond. Following last week's hearing Data Speed Tech provided Defendants with a certified copy of Peter J. King's

The Honorable Sue L. Robinson

Will and copies of the as-filed assignments between Kenneth Conner and Data Speed Tech. Both sets of documents are submitted to the Court with this letter.

Data Speed conducted a diligent inquiry into the ownership of the patents in suit. Several parties had informed us that Peter J. King's Will was not publically available, including the executor of his estate. Based on the assumption that Peter J. King's Will was not available, Data Speed obtained a declaration from the executor of Peter J. King's estate. The day after this Court's hearing on ownership issues relating to the '686 patent, Data Speed sent a messenger to the courthouse in Ramsey, Minnesota. Ramsey is the small town where Peter J. King had passed away. There, Data Speed was able to obtain, with the help of the court staff a certified copy of the Peter J. King Will (see attached) that substantiates the declaration of Peter J. King's son Russell King. The Peter J. King Will states that all Peter J. King's assets were to flow into the Peter King Trust (which executed the assignment of the patent-in-suit to Kenneth Conner).

Should Your Honor have any questions or require any additional information, Data Speed is available at the Court's convenience.

Respectfully submitted,

/s/ *Stephen B. Brauerman*
